Co-op Role Discounts

Beyond the base participation in our parent cooperative program, families may opt to engage in our school community by applying for a Co-op Assignment. There are a number of Co-op Assignments that support our school program. Each role is designed to help the school continue it's mission. Our co-op participation allows us to deliver an instructional program with a high level of support in each classroom. Roles are also designed to support the school in ways which offset costs and allows the school to keep most of it's operating budget pointed towards instruction.

Guidelines:

Co-op discounts are assigned as a value based on the Co-op Assignment type. (See table below)

- Co-op Assignments are limited to the needs of the program.
- Co-op discounts are applied to the first/oldest child enrolled.
- Families with 1 child may accept 2 co-op roles.
- Families with 2 or more children may accept 3 co-op roles.
- Only 1 Sr. Leadership position can be accepted per adult.
- Families needing to reduce tuition obligations, having maximized their Co-op Assignments may apply for Financial Aid/Scholarship.

Discretionary terms:

- Should co-op assignments go unfulfilled, at the discretion of the Head of School, additional roles may be assigned per family.
- The Head of School has the right to increase or decrease Co-op Assignments based on the needs of the school program from year to year.

Eligibility:

- All families are encouraged and eligible to apply for Co-op Assignments.
- Co-op Assignments may require a demonstration of skills, or willingness to attend training for that the role.
 - For example, if participating as a classroom aide, prior experience in working with school age children may be required, or a willingness to attend training.
- Parents must be in their second year or later of participating in the Cooperative Parent Program to participate in a Jr. or Sr. Leader position.
